# TAN WAN YIN

Software Developer

Software Engineer with 3+ years of experience building backend systems, APIs and automated workflows that replace manual processes. Hands-on with n8n, Node-RED, Airflow and Python, and actively building AI-powered tools with LLMs. I learn by building, turning business problems into working prototypes and improve them until people use them.

## TECHNICAL SKILLS

AIRFLOW | DKRON | N8N | PROMPT ENGINEERING | AI AGENTS | CLAUDE CODE | LLM APIS

C# | PYTHON | JAVA | JAVASCRIPT | HTML | CSS | GIT | CI/CD | JENKINS

.NET | RESTAPI | MSSQL | MYSQL | SCRUM METHODOLOGIES | AGILE METHODOLOGIES

## WORK EXPERIENCE

### Software Developer
IRS Software Solution (M) Sdn Bhd

**06/2026 – Current**

- Built a quotation reminder automation in n8n during an internal hackathon, eliminating manual sales follow-ups
- Integrated third-party weighing scales with the POS system via API and middleware, enabling real-time weight capture at checkout and removing manual entry.
- Learned the ERP and POS modules (Sales, Purchase, Inventory, POS) end to end, and used that knowledge to identify automation opportunities across retail workflows.
- Used AI tools like Claude Code and Codex to accelerate prototyping and debugging.

### Software Engineer
Meta Research Sdn Bhd

**04/2023 – 05/2026**

- Led the migration of component logs from Druid to Apache Doris, preserving data integrity and cutting query time on large datasets.
- Built and maintained a rule engine with structured rule definitions and cron-based automated script execution, replacing manual process and running multiple rules reliably.
- Optimized Node-RED automation flows, reducing processing time and manual effort.
- Designed and maintained backend REST APIs powering business-critical processes for real-time retail and venue analytics.
- Architected an interchangeable backend for workspace modules, cutting new-module delivery time through code reuse.
- Resolved bugs across multiple modules.
- Worked with product, QA and frontend teams to ship features end to end, and wrote technical docs and release notes that cut onboarding time for new teammates.

### IT Intern
Public Bank Berhad

**09/2022 – 12/2022**

- Integrated APIs into the mobile banking app and managed change requests, delivering features on schedule.
- Built a “favorite accounts” feature that increased repeat transfers.
- Implemented post-transaction push notifications, giving users instant confirmation and feedback.

### Project Management Trainee
Ansell Global Trading Center (Malaysia) Sdn Bhd

**09/2020 – 05/2021**

- Built Excel automation for data entry, reducing manual errors and update time by 80%.
- Maintained weekly customer and plant records with high data accuracy.

## PROJECTS

### MediBuddyAI

AI-powered web application enabling doctors to manage patient schedules efficiently, send medication reminders, and streamline follow-up tracking.

REACT NEXT JS GROQ AI SUPABASE

### Restaurant Ordering System

Web-based restaurant ordering system built as part of a university group project. It allows customers to browse the menu, add items to a cart, and simulate an order checkout.

HTML CSS JAVASCRIPT JAVA SQL

### Booking & Ordering Management Application

Flutter-based mobile app to streamline internal hotel and lab equipment management, enabling room bookings, service quotations, and food orders.

FLUTTER DART HTML

### Mobile E-Commerce & Ordering App

Native Android e-commerce application allowing users to add items to a cart, place orders, and store invoices, streamlining the shopping and order-tracking process.

ANDROID NATIVE JAVA

## EDUCATION

**Bachelor of Computer Science (Hons) Mobile Computing and Networking** **(2019 – 2023)**
UCSI University: Kuala Lumpur Campus

**CGPA 3.86 / 4.0**

## CERTIFICATIONS & ACHIEVEMENTS

- Google AI Professional Certificate, Google (2026)
- No Code AI Agent Builder with n8n, Simplilearn (2026)
- 1st Place, AAIMS25 AI Code Fest - Healthcare Reimagined, (2025) MediBuddyAI
- Nominee, Valedictorian Award, Class of 2023, UCSI University
- Kuok Foundation Scholarship Recipient
- UCSI Trust Scholarship Recipient
